

A modern interior design scene featuring a large, light-colored modular sofa in the foreground. Behind it is a wall with a dark, textured stone or rock pattern. To the left, there is a dark cabinet with glassware displayed on shelves. In the background, a dining table and chairs are visible. The lighting is warm and ambient, with a modern chandelier hanging from the ceiling. The overall aesthetic is contemporary and sophisticated.

RESIDENTIAL INTERIOR WORK

1.

Interior design is an integral part of architecture, focused on creating interior spaces that make the building both functional and aesthetically appealing. Still, we have different kinds of buildings, so it makes sense that we have different kinds of interior designs. One of the biggest arenas for designers is **residential design**, or the interiors of spaces in which people live. This can include houses, apartments, and anywhere else where people reside.

DESIGN 1

Aesthetic and Beautiful design with Your convenient Space with your choice
A bedroom is a room situated within a Residential or accommodation until Characterized by its usage for sleeping.

DESIGN 2

In Western Architecture, a living room, also called a lounge room, sitting room, or drawing room, is a Room for relaxing and socializing in a residential House or Apartment. And your feel it calm place in This room and its adjacent just like a bedroom.

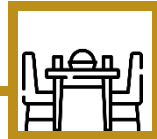

DESIGN 3

The perfect design for your kitchen with our Range of elegant layouts. Your perfect & Practical Awaits with Wurfel's vibrant modular kitchen design Get smart kitchen layout, with wardrobes, Vanties, Artefacts, furniture.

You can get design with Vastushastra because Vastu experts Ashna Dhannak believes the kitchen is the best place to attain better health And improve motivation. To ensure your kitchen is enveloped in positive Vibes, the elements of earth,sky,air,water need to be in balance, according To Vastu Shastra.

DESIGN 4

The most critical component of dining room interior design Is the dining table and chairs. A well loved dining table around Which families and friends assemble has many a tale to tell. With some thought, it can be more than just place to dine at. When selecting a dining table, begin by considering the shape And size of your dining room. Then factor in the number of People In your family that are likely to gather around at meal time.

2 COMMERCIAL WORK

A well designed commercial space has become a necessity in recent times. Be it the workspace planning plays a significant role in employee and customer satisfaction. A warm and Welcoming office space imparts positive vibes , white a busy, cacophonous, and cold ambiance can lead to irritation and impatience.

DESIGN 1

Office is design to both employees and customers. But employees who Spend a large part of their day in an office, it is crucial to create a space That's functional, visually appealing, comfortable, and living-all of which promote productivity and efficiency. For customers, office design sets the tone for a business and tells a story about the brand professionalism, and success

DESIGN 2

Previously receptions were only known for attending guests, Getting help for any respective problem or simply a working Front Desk of any office. But now a days reception is lot more than that,

It's a "secret design tool to create amazing office ambience" for any kind Of commercial organization. Well-designed reception should always Welcome guests with pleasure, warmth and love. So, make an impressive mark with the very first step of the client and visitors with amazing, aesthetically sound, sophisticated, formal yet comfortable reception area.

DESIGN 3

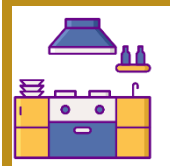

Workplaces, nowadays, attach a lot of importance to redefining their spaces In a manner that suits and brings balance employees' productivity and Comfort. **workstations that are not just ergonomic, but are also flexible enough to be utilized across the floor. Modern workstation comprised of Shred spaces where communication is easy and there is flexibility to engage** in casual conversation. While open workstation support fairness at **All levels, care needs to be take** in other aspects.

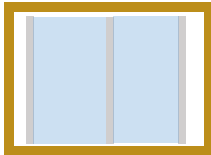

Office pantries are communal areas where employees can gather to relax and take a break from work. There are buildings with separate pantry areas for the whole floor. When there is more positive interaction at work such as friendly chit-chat over coffee in the pantry or having lunch together in the office kitchen, staff are able to build better friendship and make deeper connection with each other.

DESIGN 4

DESIGN 5

They can be half-height or full height. The interior space can be made more attractive by using frosted or transparent glass partitions. Office partitions make it easier to create cubicle spaces or to divide a larger space into smaller spaces.

DESIGN 6

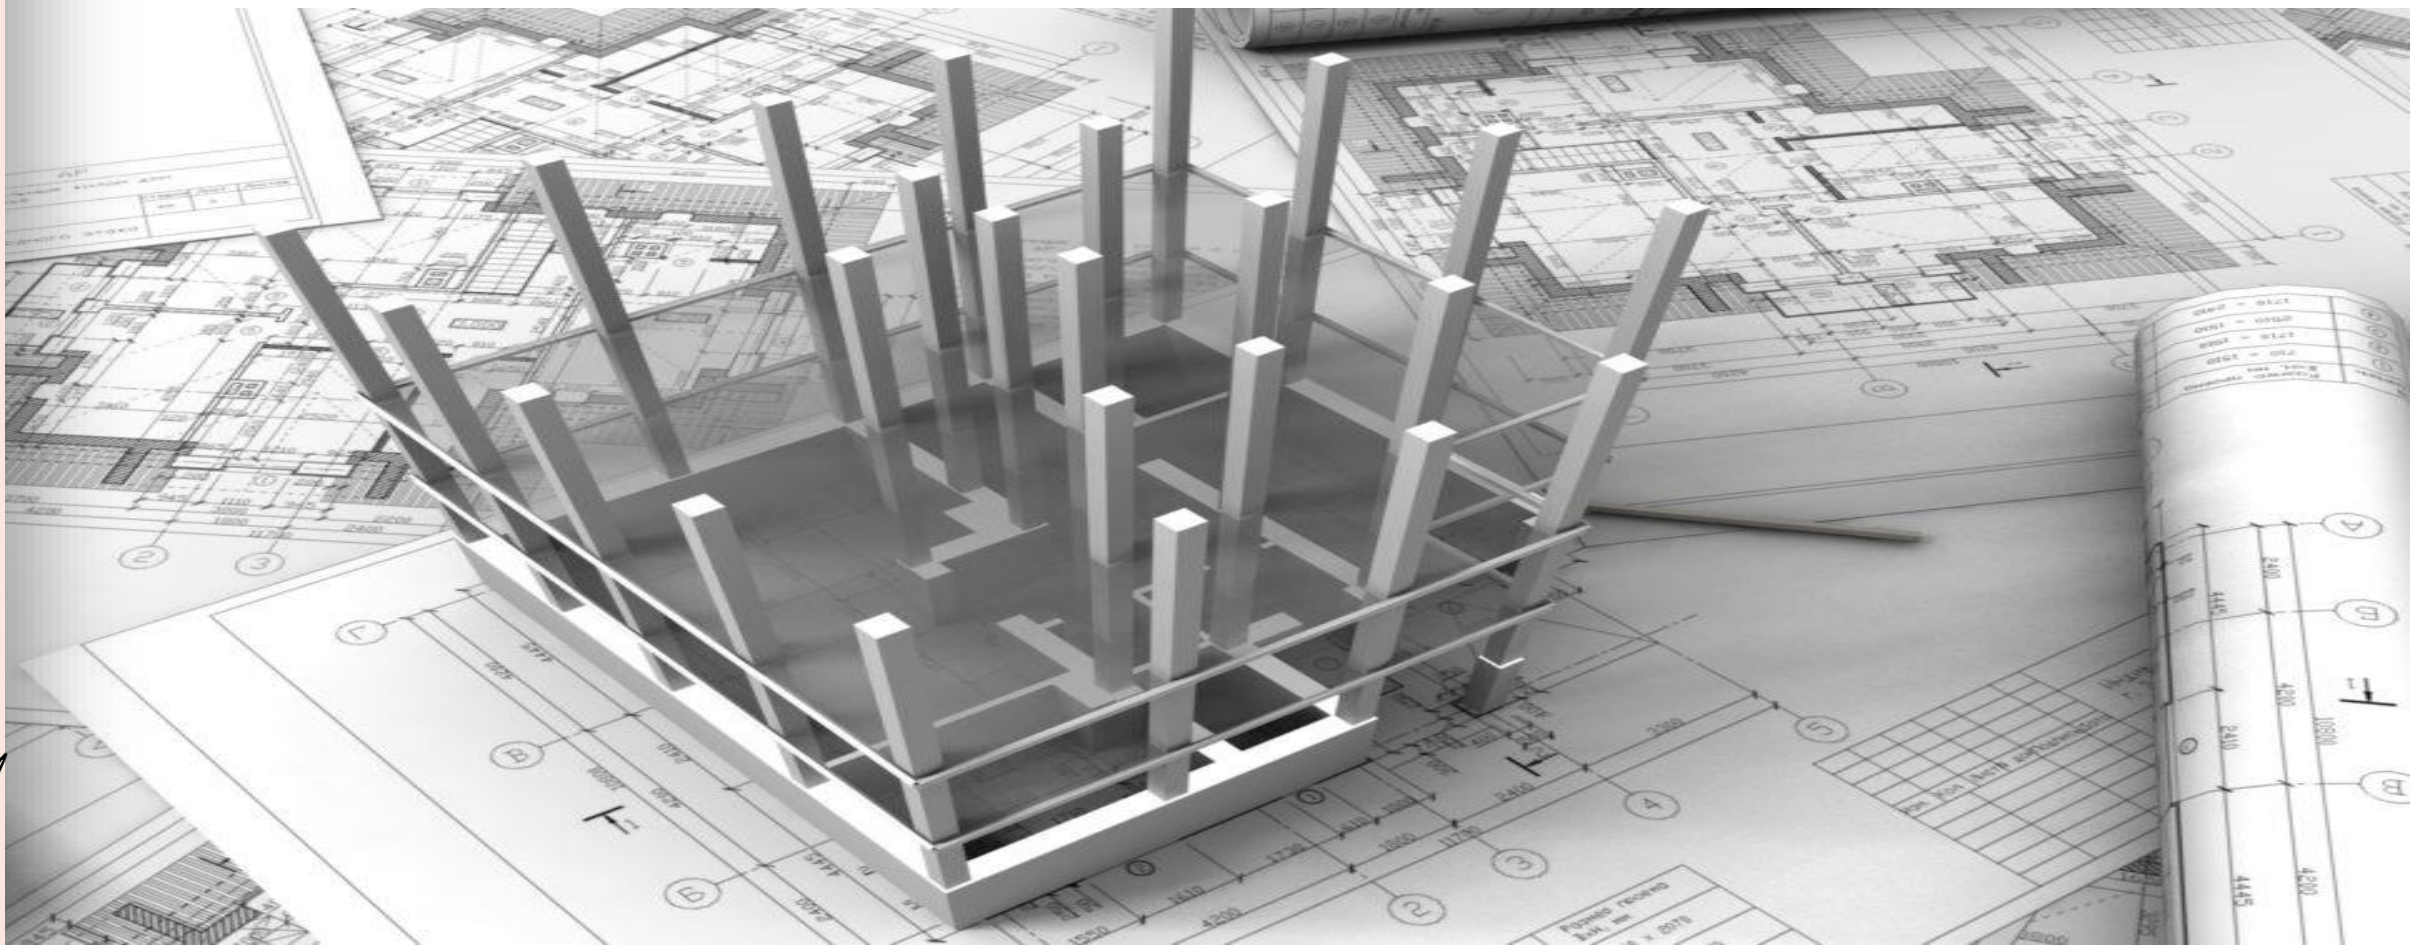

A Pedestal is a box-shaped container that fits horizontally inside a piece of furniture in a way, That enables the storage and retrieval of miscellaneous contents. Pedestal are built into numerous types of furniture, including cabinets, chests of drawers desks, and its like your choice

CONSTRUCTION WORKS

3.

An Designer co-ordinates from the blue print till the execution/ completion of the project. Limited space for construction requires optimum usage of available space. The most effective use of space, user well-being factor, functionality of the layout and coordination with developers are the most important aspects of Interior designing.
